Ultra Gro Acidifier

This Ultra Gro product has helped us lower pH in irrigation water for fertility applications and unplugging calcified irrigation systems. **Ultra Gro Acidifier**

- Has a pH that is estimated at -2
- Increase the efficacy of Phosphate (and other nutrients) in high pH soils
- While running high pH water...get the most out of your fertilizer application by running UG Acidifier with your fertilizer during application
- Available in small quantities for that "too small of a field" to justify the cost of a bigger system

Ultra Gro Acidifier Application:

- It's safe, but be careful...even though it won't burn your skin, it will burn your clothes!
- With an estimated pH of -2...that means you don't need a lot to get the job done...ask your Ultra Gro Rep
- Unplug your irrigation system using Acidifier
- Available by the bucket, or in a tote

ULTRA GRO □ ACIDIFIER WILL GIVE YOU INCREASED YIELDS, □ INCREASED QUALITY, AND WILL INCREASE YOUR PROFITS
